WORK EXPERIENCE

04/2023 – today

Senior Agile Project Manager

Indra Avitech GmbH, Friedrichshafen

Client: Euro Control

Project: iNM– integrated Network Management - by Euro control enhances air traffic management in Europe through seamless coordination and real-time data sharing among stakeholders. It aims to optimize airspace capacity, improve efficiency, and ensure safety.

- Leading a Scrum team of 15 people across three sub-teams to migrate a project from legacy systems to modern technologies. Managed all phases of the Software Development Lifecycle (SDLC), from gathering requirements to deployment, ensuring timely quarterly releases.
- Acted as Scrum Master, overseeing 14-day sprints and collaborating with 4 product team managers. Increased sprint velocity by 20% and achieved an 85% sprint completion rate.
- Managed a €1.4 million budget, delivering releases 15% under budget while coordinating with testing teams to reduce post-release defects by 30% and ensuring a 98% on-time bug resolution rate.
- Mitigated project risks, reducing delays by 25% through proactive planning and contingency strategies.
- Utilized Jira, Confluence, Java Spring Boot, Kubernetes, Docker, Jenkins, GitHub, GitLab and React to ensure 99.9% system uptime and improved performance by 15% post-deployment.
- Led transformation projects from traditional to Agile methodologies, successfully implementing Scrum and Kanban in daily operations
- Facilitated workshops to train stakeholders on Agile fundamentals and best practices

05/2022 – 12/2022

Project Manager

Alten GmbH, Stuttgart

Client: Bosch

Project: Bosch is advancing autonomous driving technology for high-speed scenarios (up to 120 km/h) through a combination of advanced sensors, AI, and V2X communication. Their focus is on safety, regulatory compliance, and integration with smart cities for improved traffic efficiency.

- **Project Delivery:** Led end-to-end delivery of multiple key IT infrastructure projects, ensuring on-time completion while meeting predefined objectives and quality standards.
- **Stakeholder Relationship Management:** Developed and maintained strong relationships with stakeholders through regular status reports,

issue resolution, and milestone updates, enhancing transparency and fostering trust throughout the project lifecycle.

- **Scrum and Agile Implementation:** Utilized Agile methodologies to manage resources, tasks, and scope effectively. Led backlog grooming and sprint planning to align with evolving business needs, improving responsiveness to market demands.
- **IT Advisory and Client Services:** In project management focus on aligning IT strategies with business goals, managing risks, and engaging stakeholders
- **Project Quality task** Managed project quality initiatives, focusing on Quality Assurance, roadmap development, quality gates, and quick checks.
- **Report task** like creating and presenting Monthly Q-Report, SST Report, Ad-hoc reports
